

COVID-19 Crisis: Resources for Refugees and Immigrants

In an effort to ensure safety, dignity, and access to care for all, regardless of immigration status, during the ongoing national health crisis, our colleagues at Justice for Immigrants have created a new corona virus webpage with informational resources that immigrants and refugees can use as they deal with the virus that causes COVID-19 and mitigate its harmful impact. Please share the [corona virus website](#) with your parishes, organizational partners, community groups and clients.
