

The Leadership Conference of Women Religious  
The United States of America

The Carmelites Vedruna of America, gathered in Lima Peru as we continue our process of merging communities from 14 countries into one continental province, would like to send to our north American sisters a warm embrace of solidarity and a promise of continued prayer during these long months of visitation to the religious Congregations of women, as well as the ongoing doctrinal investigation of the Leadership Conference.

As women of the global south, we feel deeply the resonances of the ecclesial reality to the north. It is an historical moment of concern and a time of contemplation for all of us as we continue in mission among the poorest and to the call of the Incarnate Christ in our world.

The integrity of your faithfulness at this time of challenge is a gift to us and to the Church. May the God of all faithful women strengthen us in our building of the KIN-DOM.
